XTERRA Guam 2010 - An exciting race on the beautiful island of Guam

HYPR Events & Promotions, with the support of the Guam Visitors Bureau (GVB), presents the XTERRA Guam Off-Road Triathlon, on Saturday, March 27, beginning at 7:30am at Port Authority Beach in Piti. 2010 marks the seventh year of the event but fifth year as part of the XTERRA America Tour - the world's largest and most successful off-road triathlon series.

The XTERRA Guam combines a 1km swim in the waters of Piti, followed by a 31m-mountain bike up Nimitz Hill, into the technical terrain atop Mt. Alutom and then down to Mannengon Hills before returning to the transition point at Port Authority Beach. The race finishes with a memorable 8.2k trail run that has athletes navigating through jungle rivers and down slippery waterfalls. The run was described a "signature test of courage" by Inside Triathlon writer/photographer Tim Carlson in the May 2007 issue.

Mike Le Roux came 3rd in the PRO Men's at the 2009 event and highly recommends this triathlon to everyone!
